Another Shooting Has The Gun Control Group Ecstatic

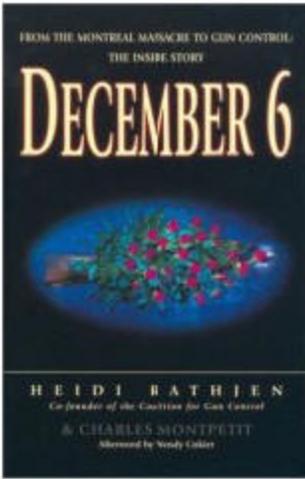

The people behind gun control need a massacre to get their agendas passed. No one gives guns a second thought, until the anti-gun advocates, backed by the Hollywood crowd, start the parade.

Another odd coincidence is that these massacres happen mainly at schools. There was Dunblane, Columbine, Pearl High, Red Lake, l' cole Polytechnique, etc.

The Roots Of Canadian Gun Control

On December 6, 1989, Marc Lepine entered the engineering school at the University of Montreal and gunned down fourteen women, and wounded fifteen others. Lepine was never looked into, as regards to his background, associates, psychological state, or his drug history.

Cukier And Rathjen Well-Rewarded

In 1990, Wendy Cukier and Heidi Rathjen, both Jewish, founded the Coalition for Gun Control and became the driving force in the crusade to have Bill C-68 become law. Today, one is an associate Dean at Ryerson, and the other is a novelist and speaker.

Valery Fabrikant Kills Four

In 1992, a Jewish/Russian professor at Concordia [killed four](#) of his colleagues. He was a nut case who was tolerated because of Concordia is considered Canada's top Jewish school.

Concordia Is Volatile

The school is [heavily Jewish](#), the Hillel unit is active in bringing in IDF recruiters, and hosting conferences with the likes of [Bibi Netanyahu](#), Ehud Barak, etc. Netanyahu brought in [Israeli snipers](#) on campus rooftops, and [Frank Lowy](#), University President, allowed it.

Concordia students forced Netanyahu to cancel his speech, and he insinuated he would have the [students neutralized](#).

Herbert Eser Gray

Firearms Act in 1995

The most recent law requires registration of all firearms, screening licenses for gun owners, a national information system on gun owners and their firearms, and a ban on semi-automatic military-style weapons.

Today's Gun Control

The Canadian Jewish Congress is at the forefront of all legislation. Basically you need to be registered. Forget handguns, semi automatic, assault rifles, or anything of that nature. [Laws](#)

The Shooting Of 9/13/2006

It appeared to be another odd one, where witnesses are claiming multiple shooters. Columbine and Port Arthur had the same claim. Luckily, the police went right in and shot him, otherwise you would have had fifty dead.

The Shooter

[Kimveer Gill](#) was a 25 year-old Canadian, whose ethnicity is claimed as Indian. He played guitar in mixed Jewish band.- [Montreal](#) has a extremely high population of Jews, with them [at 9%](#) of the city's population.

Look At Other Statistics

You have traffic accidents, drunk drivers, drug overdoses, incompetent doctors, suicides, etc. In the past fifty years, there has been two million killed in traffic, and maybe twenty thousand by guns.

These shootings are statistically insignificant. The Zionists want your guns, and a close look at [Port Arthur](#) will make you wonder how accidental some of these massacres are.
